Sandy Hook, MS 39478
(601) 876-5388

April 29, 2013

Dear Customer,

All non-commercial meters must not have more than one (1) resident connected per water meter. In January, 2010, the Improve Water Association's board of directors set a deadline date for all non-commercial meters with more than one (1) residential connection on the meter to have a new meter installed for each resident. That deadline date was set for July 1, 2010. Since that date was originally set, some customers have complied and some have not.

The existing meter will be for the original customer, the residents that were added to the meter later will be required to have a meter installed at the customer's expense.

As a courtesy, the Board of Directors approved and set a new deadline, which was posted in our newsletter that was mailed to customers at the end of February, 2013. This letter is a reminder that the new deadline date is set for May 31, 2013.

Any non-commercial meter that is serving more than one (1) resident after this date will be disconnected (locked) until the problem has been resolved, and a reconnection fee of \$75.00 will be applied.

The cost for each new meter will be as follows:

Membership	\$ 10.00
Meter Deposit	\$ 40.00
Meter Set	<u>\$150.00</u>
Total Cost	\$200.00

Thank You,

Tony Thomas, Operator
& General Manager
