Water Users Agreement

Account #: _____

Previous User: _____

Application Date: _____

I, _____ hereby make application to the Improve Water Association, (Utility) for water service.

In consideration of the Utility providing water service to me, I Agree:

1. To pay all necessary installation and / or connection charges by the Utility for water service, which includes a refundable deposit. If the Utility determines that a road bore is necessary applicant must also pay for the charges of the road bore.
2. To install and maintain at my expense all necessary plumbing to be connected to the Utility's water meter.
3. To pay all monthly charges beginning with the first billing cycle after water service has been established at the meter on my property. I understand the regardless of whether or not I have installed service lines or have consumed any water, I will still be required to pay the necessary monthly minimum established by the Utility. I further understand if I do not receive A statement of current monthly charges it is my responsibility to contact the Utility during normal business hours to arrange payment and the fact that I haven't received A water statement does not waive my responsibility to pay those charges or any late assessments or service charges that result for my failure to remit the proper payment when it is due.
4. To use the water in accordance with the rules and regulations established in the Utility's Policies and Procedures which include me from connecting or allowing the connection of other residential dwellings or businesses to my water service.
5. To properly notify the Utility when I change mailing address, if I relinquish control of my property, or for any reason to request that water service to my property be terminated.
6. To grant the Utility, its successors and assigns, a perpetual easement in, over, under, and around my property with the right to erect, construct, install, and lay and thereafter use, operate, inspect, repair, maintain, replace, and remove water pipelines and appurtenant facilities together with the right to utilize adjoining lands belonging to me for the purpose to ingress from the Utility's easement.
7. I will not erect any obstacles over the Utility's pipelines that would prevent the Utility from repairing the water pipelines and if I do the Utility will not be responsible for damages to such objects.
8. The applicant agrees that they have followed the guidelines set forth by the Mississippi Sate Department of Health regarding onsite wastewater disposal.

In consideration of my payment of all charges, the Utility Agrees:

1. To make every effort to provide a continuous supply of safe potable water to me. I understand that at times due to equipment or power failures, water main breaks, weather related damages, and other unpreventable circumstances that the supply of water to my property may be interrupted. I understand that a guarantee of an uninterrupted supply of water can not be granted by any water utility and that if my residence or business requires A continuous supply, then it is my responsibility to install at my expense the necessary equipment to provide an alternate water supply. I further understand that I am required by law to notify the Utility of my intention to connect an alternate water supply and that the Utility is required by law to inspect the water supply to ensure that I have included the required backflow devices to prevent possible contamination to the Utility's water distribution system.
2. To charge me each month the established minimum charge plus applicable rates according to the actual flow usage registered on the Utility's water meter and recorded monthly by the Utility. I understand that at times inclement weather may prevent the reading of the water meter on my property and that the Utility may use an estimated charge based upon my historical consumption and that such estimations are provided by law but restricted by the fact that actual readings must be recorded the month preceding and the month following the estimation and that I must be notified that the charges are base upon usage estimates. I also understand that it is my responsibility to provide proof of reading error or payment error to the Utility for an adjustment to be considered.
3. To notify me of any changes in rates or customer service policies of the Utility.
